

The High Energy Theory Group has an assistant scientist position available beginning October 1, 2012. Although the group has active programs in all areas of Particle Physics, including Standard Model and beyond, and lattice gauge techniques, this search is primarily directed towards a lattice gauge theorist. The initial appointment will be for three years with an extension to a total of 5 years probably with the possibility of an eventual promotion to a regular staff position. Under suitable circumstances, a senior level appointment may be possible. Under the direction of A. Soni, Physics Department.

To apply, go to www.bnl.gov, click on "Job Opportunities," and then "Search Job List" for position #16047. Arrange three letters of recommendation in PDF to be sent to: nkelly@bnl.gov, and cc. soni@bnl.gov. Applications will be reviewed starting March 26, 2012 and will continue until the search is completed.

BNL is an Affirmative Action, Equal Opportunity Employer committed to the development of a diverse workforce.
